MESSAGE FROM THE DIRECTOR

I am pleased to present the 1985 grain-movement summary. As in past publications the grain-movement statistics have been derived using an expansion factor. These statistics provide a basis for a more realistic analysis of inter- and intrastate grain traffic movement.

This 1985 Montana Grain Traffic Statistics publication is designed to be an important source of information for Montana's grain industry and others regarding the grain-marketing patterns and transportation changes in the state.

With the introduction of the 52 car unit train rate structure Montana farmers are even more dependent on the railroad transportation system. It is my hope that this publication will enable Montana grain marketers to be more efficient and better able to identify existing markets and expand into new markets.

Considering the current economic conditions facing our agricultural sector it is in our best interest to use the most accurate information available to make sound marketing and management decisions. I feel this publication can aid in making productive grain transportation decisions.

I hope you find the information provided in this publication useful and informative.

Sincerely,

Keith Kelly
Director
